

Clay: Attaching

Score and Moisten

1. Score

Use a pointed tool like a stylus or needle tool to scratch up both pieces of clay where they will be joined.

2. Moisten

Dip your finger into water, and drip one or two drops onto the score marks on one of your pieces.

Do not smooth out the scratches!

3. Press

Press the two pieces together firmly.

Clay: Attaching

Blend

1. Finger

Use your finger to push and smear the clay from one piece to another.

OR...

2. Tool

Use a tool to spread the clay like creamy peanut butter.

3. Smooth

Smooth out the bumps and lumps with your finger.
