

Clay Coil Pot

1. Base

Flatten a ball of clay to make the base of the pot.

2. Roll

Roll out a coil of clay that is about as thick as your finger or thumb.

3. Coil

Wrap the coil so that it stacks up on itself to make the walls of the pot.

4a. Blend

Use your finger to push and smear the clay from one coil to another.

OR...

4b. Blend

Use a tool to spread the clay like creamy peanut butter.

You can even blend the coils on the inside.

5. Smooth

Smooth out the bumps and lumps with your finger.
